MISCELLANEOUS PROBLEMS/QUESTIONS/ITEMS NOTES PERTAINING TO WARREN REPORT OF INVESTIGATION OF ASSASSINATION OF PRES. KENNEDY/ TOGETHER WITH THOUGHTS ON MATTERS WHICH SHOULD BE /HAVE/ been further looked into.

References such as 26/185 refer to 26 vols of Warren Report (Vol 26 page 185)

Would appreciate any further information or comment on below items (refer to item number). Whether matter is being pursued, satisfactorily answered, or personal opinions as to whether likely to be germane.

Address J. Schmitt 2030 Fell St. Apt 8 San Francisco Calif 94117
ITEMS ARE IN RANDOM ORDER AS TYPED FROM HANDWRITTEN NOTES/SHOULD BE ONLY WAY OF EVER GETTING IT ALL DOWN IN ONE PLACE

1.

1. See 22/534 re Ruby phone calls during two day stay aug 4/5 in New York city. Note call into area code 807 nbr 2754291 on 8/5 to: Port William, Canada. This is on north shore of L. Superior just outside territorial US limits. Party not identified on 26 vols. Who?

Also call to area code 213 nbr 5230930. This should be code 504 as this number is listed to "Club" re Harold Tannenbaum New Orleans. The 213 shown in WR is Los Angeles area code. Could be clerical error.

Note one of three Dallas calls is to 214/5284775 to Oscar A. Robinson. Was this party ever satisfactorily identified? (Other two Dallas calls to Carousel.

2. The name "Charlie" found among Ruby property at MCH. CR1490 phone nbr Mo 1-1700 ME is Shreveport La. prefix (among others, no doubt.) Has this number been tied to a name?

3. What has been ~~me~~ unearthed on L. Ramos Duecast 26/472. Name is in index of Hispanic American Report/name would appear in April or May 1962 issue. Not available to me.

4. Anything on "Larry Latin Band" in Ruby addr. book? 19/98 Geo Senator mystified? 14.291. Could this be reference to SLATIN, Joe interviewed 23/59? Was Laurence Howard aka "Larry". Friends of Crafard?

5. Anything uncovered on Crafard that makes him other than what he seems to be(not-too-bright ideless drifter)??

6. Have been intrigued from the start of study of the 26 vols(12/64) by the item on D. H. McFadin 19/501. Anything on this?

7. Many reference to suspicious vehicles in Dallas radio reports of 11/22/63. Especially Red 63 Impala, Georgia plates 52JN 1033 and 57 green & white Ford, Texas DM4357 (apprehended in Ft Worth and released). Not to mention White Pontiac station wagon/ ditto Embler. Not much info to be gleaned in any of the 26 vols or literature on the subject as to what kind of cars operated by the many people whose names have been mentioned in connection with Warren and Garrison investigations.

8. 24/348 Re notice for Lee Oswald at Irving address for parcel to be picked up /any dope on this?

9. Reference 24/351 to brown paper sacks tied with string on each end and maps of Asia and Africa/apparently Painspreightly/ possible tie-in with "Rifle" sack? Dont remember seeing these referred to in WR testimony.

10. Reference 20/499 to Mr. Sharp of 3439 Detonta(Detonto) Dallas "officers said he had been up in the bldg across the street from the book depository bldg without a good cause". Was that bldg old out too then? How does Sharp check out?

11. As far as Ruby not knowing when the transfer of LHO would be made he left his house with portable radio and no doubt was listening it all the way to the telegraph office. As I remember it was found in glove compartment of his Olds. Don't remember its being described in WR. It may have been something other than the ordinary portable radio(Walkie Talkie type or special frequency (police?) type/may varieties are on the market/ even if its only ordinary radio his comments that he had been under the impression that LHO would be transferred at 10 am are rendered a bit disingenuous.

12. Anything new on "Ruby in Houston 11/21 pm. Note nothing reliable was come up with in WR to account for his being in Dallas between 3 and 7 30 pm on 11/21. The Houston suspect was distinctively-garbed/ were clothes like these among Rubys effects? If this person with the Cadillac (Buick) around the corner was not Jack Ruby there is probably one of more of the people he made contact with in Houston(the locale not known) who would be able to identify just who it was and dispel the matter for good.

13. Oswald enrolled in a typing class at Crozier Tech 1/14/63. References CE 1130/1785/2699. It might be revealing to have a list of his classmates during the 2-1/2 months or so that he attended. Teacher was Gladys Yoakum, who "kept a little black book on all her pupils".

14. We are told in WR that there were 25 or 30 in the class/ and that he had "no associates in the class" (None to speak of??) See CE2699 especially for discrepancy of Yoakum interview.

14. Daugherty 19/619 testimony re 5th and 6th flrs TSBD maybe ex revealing if one could ungarble it.

15. See 26/509 re Karen Carlin. Warrens original report is apparently quite interesting. Has it been printed up or is it available at Wash DC?

16. It might be possible thru contact with Atty. C A Drobly to determine when, why and by whom his wife was threatened. 20/381. Kantor notes refer to this. Didn't find anything on it in 26 vols. (Sleuths weren't interested?)

17. Question: If (as is generally assumed) Ruby knew J D Tippit, why was this persistently denied by Ruby, his family and the commission in view of the fact ~~incriminating~~ that Tippit is presented to us by the Warren Report as having died a hero's death ??
~~xx12xx~~

18. Interesting (pointed out by Sylvia Meagher in Minority of One article) Oswald wanted to have dishonorable discharge reviewed and also wanted to re-enlist with a sincere desire to use experience gotten since his release from active duty. This could have easily, and probably (possibly) was meant to/ have lead to certain Federal agencies contacting him re employment. Ref: 25/16

19. Bringquier description (for what its worth): 5-10 black hair, brown eyes. Not particularly dark-skinned. Beginning of a paunch, tho he is generally rather slender. Wears glasses. Smokes cigars.

20. 23/746 "Charles Harrison", Tulane university, used as reference by LHO on application for unemployment. Any such person identified? Is it the feeling that this and/or a lot of Oswalds job, character and other references non-existent names whom he felt could not be checked out?

21. Oswald showed 3510 N. Beckley as an address on his application for box 6225 per Holmes 7/292. Does the address exist and who resided? Think this might not be just another of his fake addresses in view of the fact that material addressed to him could possibly be forwarded there, or possibly notices of same. Maybe another "Camp St." type slipup. Advise.

22. Penn Jones Jr is supposed to have printed some thing about a Red Plymouth driving back and forth at the site of Tippit slaying. Can someone supply reference on this, or details as to what the item consisted of beyond this?

23. Minor item: Coat turned in by James Clark LaFue who had "found it on Industrial" Probably a lot of evidence taken by the DPD and other agencies is good for good, especially if it could be checked back by laundry marks or whatever means applicable to good ole LNO.

24. Interesting item about maps on left side page 245 vol 24. No mention made of these maps anywhere else in the 26 vols that I remember. If there was I missed it. If there was not, why??/ what are these??

25. Reference to O N I 4/409 (Fain)

26. Per 24/284 DeBruyns at Oswald interrogations in Dallas. No supporting evidence for this/just the appearance of the name. Odd to say the least.

27. Frits already on 6th flr 12:50 11/22 per office r Marvin Johnson 24/307 and 24/314. Dont know if this is contradicted elsewhere.

28. Per 24/307 Baker accosted Oswald on fourth flr TSD??? More sloppy commission work?

29. 6/324 Sawyer says movies taken from bldg adjacent to TSD

30. Warren Commission in 26 vols gives us quite a few lists of fone calls made by various parties, subpoenaed from fone co. Are there other lists in the Archives that were not printed in the 26 vols? I would be very interested to know who for, and the reference citation in Wash.

The fone records for Odile were no doubt obtained. Her/uncle in N.O. maybe. Fone records for Harlandale address might be interesting. Nothing noticed re toll calls from the Paine residence, although we would expect to find same. (of course the possibilities are endless, and would probably be fruitful.....just wondering what was gotten by the FBI at the time/ and whether anything would be available 3 or 4 years later/

31. 24/21 Jack L. Powson (GUCCI) this person looked into more thoroughly than indicated in WR I presume. Name appeared on Oswald library card. 25/65 24/17 24/20 this person worked with Oswald at Jaggers-Chiles-Stovall. Interview/s/ of him in Archives?

32. Longshot; Lt. Higgins DPD any relation to officer Wiggins involved in shooting newsman Hunter in Long Beach police station?

33. 25/242 Call Ruby to N J pecora(mentioned P.22 9/1/67 LIFE
Noflo Pecora.

34. CE1928 Bob Heller /Atty. Jack Nelson, New Orleans interesting re three Cubans pushing Oswald around, witnessed by Heller who found the Atty. What developed from this fone call is not mentioned.

35. Mention of "Georgia" on payroll info record Re: Leslie Welding job. Would be interested to know what this involves.

36. "Geo. Hidell 705 Polk2 college student" Oswald reference on application for employment at Goldring's, New Orleans 23/745. ??

37. Per 26/769 Oswald gave Leon Israel Coffee Co. as place of employment when instituting gas and light service at 4907 Magazine. Doesn't one expect the reference given in this particular instance to be checked out. From my own experience the utilities dont like to go out on a limb.

38. Two calls to Palo Alto made by Rubys old buddy McMillie(murderer) in Nov 63. 11/6 to 326-2365 party not shown 10 30 pm 19 min 52 sec. Also/ 11/10 5 09 pm 9 min 21 sec to 323-6321. The first of the two was immediately followed by a call to Frank Casone, Memphis Tenn. All these from McMillie in Nevada. Ref: 26/547. Palo Alto contact checked out for McMillie? Who is Casone?

39. List of Fair Play for Cuba members was supplied to Secret Serv. by the Louisiana State Police.(Baton Rouge) "None of the names mentioned have been associated with any of the persons being investigated at the present time(by whom?).. Ref: 26-771/ 26-773(List was supplied).

QUESTION: WHAT NAMES DID BATON ROUGE SUPPLY?

40. Item: 1/493? Long Distance calls overheard by operator in Atlanta, Ga. to Oswald and Ruby "Proceed as Planned". Paranoid r-wing pipe dreams/ a red herring/ or maybe a grain or more of truth here somewhere?

Atlanta?
(NSRP?)

41. Back to Larry Latin Band/ Leston B Price had auto license plate that tied to prefix and numbers in Ruby addr. book (If Ruby had meant to jot down a fone number he was shy one digit/ if he meant to jot down a license number , it was Mr. Price's. Ref: 19/98. Does Price dmaprop up anyplace else in anybodys work?

42. (Forget It type item: J. R. Bertrand mayor Lafayette, La. in '63)

43. Intriguing item 26/211 "Artego" re St. Thomas housing project. W/R satisfied itself by saying nobody named Artego lived there. Which was never the question. This party said Ruby and Oswald had been there together. "Artego" could be Ortega to protect the writer. Would be interesting to have list of tenants at St. Thomas Proj summer 63 /ck out for Cuban names etc/ as this tip appears to me to be the "authentic type" if there is such a thing.

44. Pontiac station wagon acting suspiciously during time of Tippit slaying/rifle in back seat? Ref: ~~xx~~ 14/639. "Pacos Ellis" prefix. Apparently only one order for the four digits was checked. Any way to check for Pontiac wagon with PE prefix and other orders of the same four digits/or has it been done? Advise.

45. Re: Hunter Schmidt fone call to Dial Ryder//The Warren Commission ascertained that one of the two lied about this call, but could not determine which, altho they made it clear they felt it was Ryder. Any further info or speculation as to which was lying, and why? Later info or speculation solicited.....

46. Two calls from JD Tippit fone 11/22 not identified by Warren Commission. 26/490. Calls to WA31303 Ft Worth and BR3269 Garland should be pinned down if they have not been already. Need info as to who was called here. Time of day of calls not shwnn.

47. FBI investigation in Little Rock conducted by McFadden.

48. Who bailed out Oswald after his scrape with 3 Cubans while passing out his literature? Warren Report quiet on this to the best of my knowledge/seems unusual. Advise.....

49. Stick Guillermo "Bill" Othon = Leopoldo? 26/596 25/371

50. 15/612 Ruby told Speedy Johnson "We should kill off all of those S.O.B.'s in Washington" (Old Jack was human after all?)

51. "Agent Youngblood" referred to by Nancy P. Rich/ could this be reference to Jack Youngblood, mercenary (~~author~~ author of "The Devil to Pay"). Youngblood was originally for the Cuban Revolution and then turned violently anti-Castro, a la Dave Perrie. Was for hire in any kind of nefarious activity if the pay was right. Specialty:gun-running.

~~x524~~

52. Alfred Pena =? Kantor 20/341

53. Lloyd John Wilson re: "Racial Matters" (Cryptic language is from list of commission documents obt from Natl Archives. This gentleman didnt have what it takes to make the 26 Warren volumes. Would appreciate a summary of his activities. His home base? Acquaintance with any of the other people mentioned in investigation? Ref. in Archives to which I could send and get info?

54. Incidentally there is a John Wilson who is listed as being a friend of the mysterious Duff. Any connection?

55. Reference to "John Logan" 15/345 (eva Grant) Slip of the tongue??
56. Vol. 26/ page 675-77 Note "H. L. Lee" bottom P.677 Delta Airlines
manifest.....Commission purportedly couldnt trace his movement out of
New Orleans on 9/25/63. Note also the erasure at bottom of document
left side of page 675. May be reference to the above ?

56. Reference 14/623 to Jack Wohl/Canadian-- connected with a
big oil co/ Re: Wall and Peterson/ the Commission lawyers werent interested.

57. Vol 13/ page 351 Armstrong testimony: Hubert asks in regard
ROLAND DAVIS/ connect with El Rancho Hotel Re: JEEPS.... This is the
only reference to Mr. Davis in the 26 volumes to my knowledge, though ob
viously the commission was aware of him and his activities. Armstrong
worked for DAVIS right after serving his narcotics rap. This should be
looked into if it hasnt already.

58. I havent been PUBLISHED, but am wondering just how true some
of Perry Russo's testimony rings/ especially about Oswald being Ferries
room/mate. H. Can one get hold of Russo testimony and cross-examination
for a reasonable price? Anyone in Bay Area have copy? Would like to know
price and how to obtain.

59. The name OKREPKI intrigues/ 26/675-77. Name is hard to place.
Otto OTERKA who had a can tied to his tail has his name on some of the
Oswald correspondence reprinted in 26 vols. Could OKREPKI be a code for
some other name/ Does the name appear in the directories of major Texas
or Louisiana or Mississippi cities/ Makes a lousy Southern redneck name
but a beauty for Eastern European-CIA type refugee recruited-UP name.
Anything on this?

60. Vol 5/ p 241 (Wade) Something about a colored boy in jail
who had hauled Oswald away from there" Dont have all the folunes up here
with me/ Ties in with story supposedly told by Howard and related by
Lane. Also with dark-complected type supposedly driving white Rambler
station wagon down Elm St. and picking up somebody running down grassy
hill.

61. Per 15/644 CARLIN was in New Orleans 11/22/63.

xxxx Also, he was in Houston 11/21 "with Jerry Bunker"

Hard to get anything on Bunker--just a little hearsay from Carlin.
Maybe doesnt amount to anything. Bunker fone should be/should have been/ckd.

62. Any reference to CARLIN being an ex-policeman? Supply.

63. Reference to Glen Alexander 13/386

64. Oswald Income tax returns not shown! Are they in the Archives?
Noted that he did receive one refund, for over \$100.

65. Food for thought: Per 15/255 Russ Knight(The Weird Beard):
"Ruby was insistent that I w ask Wade if Oswald were insane". This was
vee hours Saturday 11/23. Could it be that Ruby was worried Oswald would
be back on the street in a couple years after getting a smart psychiatrist
to testify he was a little messed-up in the head/ in stead of paying the
standard penalty for eliminating a policeman????

(Also note Ruby told Knight that Oswald was a good looking guy and
that he looked like PAUL NEWMAN! (15/257.) (Not like a little vessel
or a punk?) From what we know of Ruby this would have been adequate
basis for a Ruby-Oswald relationship. Any other ideas

66. Colonel J D Wilmeth of Arlington, Tex. (Teaches Russian at
Arlington State College) visited the Paine house on 11/29/63 TUES./

Dont have anything on Wilmeth to speak of/ any background available for him?
It seems to me the backgrounds of officer of this high rank is public info/
printed up by G P O but I cant place it/ Advise.

xxxxxx

67. The notes of phone numbers made by Oswald on 16/4/63 appear to be some kind of number code he was working on, since they repeat the same digits in the same places too often for it to be a group of separate and distinct phone numbers. Or do you like longshots or is it doodling?

Codes are involved in some of these addrs. books per Jim Garrison.

Frank. He stands by this as can be noted in his letter to Mr. Aronson printed in recent Minority of One.

68. Note a FRANK FERRARO arrested in 1966 in New York/age 29 in '66, in connection with Minuteman-Planned attacks on left- or peace-oriented groups in New York State. Ferraro called minuteman organizer and co-ordinator. Described as milkman = truck driver. The Frank Ferraro who was worked over by Ruby is has done truck driving. Just a longshot

Does not?
note?

It seems to be that there is a reference in the 26 vols that Ferraro (or was it somebody else) "Was met at the airport by Joe Valachi", but now I can't find it and am beginning to wonder if it existed. Can someone help out on this?? Some of the longshots might not be worth chasing down but one would if it might show a Ruby/Cosa Nostra/minuteman tie..... Refs: 23/143

69. Note that the "Tip from a sack boy who works in a supermarket" gambit had been used before by Birch Society in 1962 (See 17/555) Maybe connected with tip on Dial Ryder supposedly coming from unidentified sack boy.

70. The tips from various places coming in and pointing to Dial Ryder who found the "Oswald" ticket in his gunshop continued to intrigue me..... Some references on the tips are: 11/465 7/224 11/378 *McLaughlin* *practices* 22/541 re 11/24 tip Ray John to police/ 11/235 anonymous fence tips. 22/523 Ryder thinks Oswald may have brought in an Argentine rifle (read Mauser) about two weeks before 11/22. *DeM.*

71. Who are the SOLIDARISTS (See 9/267) *Wohlman* testimony. The reference is interesting but the Commission lawyers skirted this group when taking testimony from other members White Resistance community.

72. Note that DeBorchenschildt has scar on right side of his face/ dont have ref. probably Dell testimony. Man whom people thought was Ruby in Houston 11/21 had same. Havent seen foto of Dell....is his appearance close enuf to Ruby(facially) to constitute a resemblance. (Knew hes 6-1 and 3 or 4 inches taller). Some of the stuff about his big ear being around the corner/ Had been out on some oil work/ Pretty far out I'll admit, Dell wasnt supposed to be in the vicinity but he had a way of getting around.

73. See 14/618 Re: Joe Peterson, he says he stayed at Adolphus Hotel all of 11/22. His buddy Breck Wall says P went down to the site of the assassination?

74. There is plenty of stuff in Oswalds addrs. book that I dont have any way of puzzling out. For instance: OSTANKIN, Boris Pasternak residence/ In trying to figure out w/ LHO (whose literary speed is Fulton Sheen and Harry and Donato Overstreet) jotted this down it occurred maybe its one of those code words like the drug stores use in coding their pricing/ Anybody familiar with the ways of codes checked out this angle?? True two letters repeat/would this rule out the possibility?

Interesting

76. Anything on Admiral BRETON 9/253. Not indexed in Vol. 15 and this is the only reference to the man in the 26 volumes.

77. See 26/511 2512 Re ROBERT WALKER, stay at Avalon Motel and his "mysterious" calls to New Orleans/ relates to June 1963. Had some literature in his room w/swastika per nosy motel manager.

78. 22/192 A man w/ira. Paine when she moved Marina out of New Orleans?

79. Marina was at Chief Curries house Sunday AM 11/24/63 per 22/194. Dont know if this contradicts anything.

80. Per Ruby Walker testimony he was in Maittisburg Miss 11/18 or 11/19/1963 and then went to New Orleans and stayed 2 or 3 days. There are possibly four full days to account for here 11/19 thru 22 and though the questioning of Walker pretends to account for his whereabouts and movements during this period a careful reading will show that it doesnt. Presume some work has been done along these lines in N.O. and maybe there is better info in the Archives than they gave us in the 26 volumes (?) This is very pertinent for a lot of reasons. Walkers connections w/Cuban exile groups, possible connections with Weissman Larrie Schmidt group ((for instance Weissman saw leaflet in Walker station wagon per 5/11 530-31 implying there was contact during Weissmans stay in Dallas... an area which we would not expect the Commission to develop and which they didnt) Also why does Larrie Schmidt's brother who is Walkers chauffeur (sp) have to remain so mysterious to us people who ncievelly thought we would get the full dope when we pungled up \$75.

81. Reference to LONGLEY, 5/202 (Ruby) gun running to Cuba.

Also reference to Deutsch L. Maylor in Ruby testimony Ruby knew the Delta Airlines people in New Orleans 5/207. How come? ^{See 56} From his own statements he hardly ever got out of Dallas.

Ref 5/198 re Gen. Walker 5/211 "I have been used for a purpose."

82. See 19-76 Re "American Airlines-Geo Senator 1985" Tues Oct. 9 As is brought out, Oct 9 was Wed. not Tuesday in 1963, but it WAS Tuesday in 1962.

83. Phone number in Ruby notes: "Dave" AM62372. Ferrie? Cherry? How does this number check out? Cant tie AM to a City from the information on hand here.

84. Oswald in Mexico City told either Russian or Cuban people (Iforgot) that they could check his story by phoning his wife in a New Orleans hotel. Since the wife wasnt in New Orleans at that time, who did he have set up to take the call(which he obviously risked) and impersonate the wife. Would there be a need for the lady doing the impersonating to be fluent in Russian language?

85. Re: Item 80 above/ Weissman has never met Walker per 5/498.

86. CHEK was renting to two Cubans at 5212 Gaston place/ who were they?

87. Reading interviews around CSE601/STRONG indications Ruby was in Las Vegas about the first week of November 1963. Denied of course. Anything further on this?

88. Connally was holding hat in right hand just before right wrist pierced/ What happened to the hat? Important because if hat damaged then wrist wound happened separately from leg wound?

89. Oswald had property "Cuban Counter-Revolutionaries in the U.S." put out by Fair Play for Cuba Committee. Not shown to us in the 26 volumes. Probably in Archives. Havent been able to get hold of a copy. Would be interesting, to see just who he had been reading about. His copy should be checked for possible underlining or annotating.

90. Oswald had hung onto the Jan. 23 1960 issue of Nation magazine. Can someone advise if anything special about this issue that he should hang onto it so long when he threw away most of the stuff he subscribed to if we can trust the lists of his property fed us by FBI etc.

91. Supposedly the 12/20/63 Dallas Times Herald carried an article written by Lehrer stating that Jack Ruby had made several plane reservations for air travel to Mexico. Is there a reason why this is omitted in recent books? Can somebody send me the clipping or a photocopy? Presume the article has been proven worthless?

92. Crawford discharged from Army per ~~XXXXXXXXXX~~ AR635-200-374264 per 19/360. Anything special about this discharge? What type/reason??

93. Anything new on telegram to Havana 4/1/62 referred to in Earl Ruby data? Note that Earl Ruby took loan on (now) auto 3/28/62 which is four days prior to Havana T.M. Significance?

94. Information need on one Joe. R. Franklin/ See 22/761 23/475 Sheriff's office ~~1960~~ 1969 foto was shown Marina. Asked Marina whether Franklin had visited her with Lee Oswald 10-19-62. Also 26/189. Can't get anything on Franklin from the 26 vols. There is a Robert Franklin aka Bobby O'Dowd 25/341 apparently not the same person. Curious re Joe. names

95. Per 19/515 Dallas Police Dept got ~~xxxxxx~~ of drivers of the cars that were parked up the knoll in lot north side of Elm St. 11/22/67 AM.

96. Situation at Texas SSD Bldg 11/22 time of assassination: Southwestern Pub Co 2nd floor locked and someone inside 6/396. Also Lyons and Carnahan locked/same floor. 6/391: Shots came from second or fourth floor per police radio ???

97. Andre ANGELUS = who?? Duff asked if he knew such an individual "who travelled to Dallas on 11/22" Ref: 25/367 and 26/477

98. Oswald and people working with him passed out lots of Pro-Castro leaflets. No doubt he got varying kinds of responses on this, which may have been one of the purposes(besides "building a cover"). Lots of references in WR re file cases with names of Cuban sympathizers: 19/520 19/530(found about 7 metal boxes). 1 H 115(Marina) / Was getting responses to the leaflets: 20/525 20/530. The 26 vols dont even show us one sample of a "response".

99. Re: Item 91 above/ got this from paperback edition Thomas Buchanan book "Who Killed Kennedy?" page 105.

100. I dont find Oswalds keys to the Beckley st house and apartment on the lists of his property taken from him or in the searches....If they got into police hands immediately upon his capture, many possibilities are opened up. If not, what happened to them?

101. Would also like to know if he had duplicated Mrs. Paines keys for station wagon, in view of the fact that she saw him start the car and back up once without her being there with the keys to lend a helping hand.

~~102.~~

101. Page 79 of summary volume Warren Report says Boone and Weitzman found "the rifle". But vol 25 page 912 says P K Wilkins car 192 "located rifle on 6th floor" What rifle?

102. Re: missing pages Oswald address book: 17/279 17/303 23/99 24/197. *dmgo*.

103. BILL RANDALL; this neighbor of the Paines attracts my attention because of the way he is handled in the report! AND: when the Secret Service was checking the Los Angeles area immediately after assassination they were interested in purchases of telescopic sights by "Lee H Oswald or Willie Randall" See 22/523. No further reference to this in the 26 vols.

Randall remains an enigma after thoroughly combing the report.

104. Are the T thru Z pages missing from Ruby notebook 19/90891 available at the Archives? (Names like Tippit, Weissman come to mind.)

105. Be interesting to know connections of Dominico SORRELLA, and Mario and Gilberto ANGELI/ See 26/468 to 70. Earl Ruby very vague in testimony 14/376. Anybody run across these names in another connection?

106. Statement of H L Wade taken at Knoxville Tenn. 11/26/63 by FBI interesting /says saw Oswald at Carousel 11/10/63 with two men incl Latin type w/"bumps" on face.
